PROFESSIONAL SUMMARY

MIS Executive with 3 + years of experience across manufacturing, FMCG environments and Ceramic Industry, specializing in management reporting, data analysis, and business intelligence. Strong experience in Power BI dashboard development and advanced Excel automation to support performance tracking and management decision making. Proven ability to work closely with CEO, MD, production, finance, sales, and operations teams to ensure data accuracy, streamline reporting, and deliver actionable insights.

WORK EXPERIENCE

MIS Executive

Sicer Italian Ceramic Surface | Feb 2026 – Present

- Reporting directly to the **CEO** and handling critical **costing, profitability analysis, pricing evaluation, and management reporting** to support key business decisions.
- Managing MIS activities across multiple functions including **costing, sales, purchase, and export operations**.
- Preparing and presenting key reports such as: **Monthly MIS Reports, Consumption Reports, Sales Analysis Reports, Purchase Analysis Reports, Costing Reports, Profit & Loss (P&L) Reports**
- Performing detailed costing analysis to support pricing strategies and profitability tracking.
- Handling **export documentation**, ensuring compliance and accuracy in all required processes.
- Conducting **sales and purchase trend analysis** to identify growth opportunities and inefficiencies.
- Using historical data to forecast future sales growth and support planning decisions.
- Developing interactive dashboards using **Power BI** for real time tracking of KPIs and business performance.
- Automating reports using **Excel Macros and AI tools**, reducing manual effort and improving efficiency.
- Extracting and analysing data from **Tally ERP** for reporting and reconciliation.
- Preparing professional management presentations for performance reviews and strategic discussions.
- Actively participating in cross-functional meetings to present insights and support decisions.

Sales Support Executive – Data & Analysis (D&A)

Gopal Snack Ltd., Gujarat | Nov 2025 – Feb 2026

- Supporting the sales and distribution teams through **data validation, and operational process** across assigned regions.
- Preparing and maintaining **Excel based reports** related to sales, incentive calculations, manpower data, and operational trackers.
- Coordinating with **ASM, RSM, and Sales Representatives(SR/SO)** to collect, verify, and consolidate field level data.
- Handling data related to **incentives, claims, ID creations, and geo-tagging activities**, ensuring accuracy and timely reporting.
- Assisting in **process driven tasks** such as SR onboarding support, system data updates, and coordination with internal departments.
- Ensuring **data accuracy, completeness, and timely submission** of reports used for management review.

MIS Executive

Cotton Blossom India Pvt. Ltd., Tirupur | May 2023 – Nov 2025

- Led MIS functions for a major apparel export company operating **4 production units**, managing end-to-end data collection, consolidation, and reporting.
 - *Developed and deployed automated, interactive Power BI dashboards* for **Time & Action (TNA) tracking, production monitoring, Inventory Analysis, sales backlog analysis, and cost comparison**, enabling real time insights and faster management decision making.
 - Created dynamic reports with **structured data models, custom measures, and meaningful visualizations** using Power BI Desktop & Excel, improving reporting accuracy and accessibility.
 - Reduced **manual reporting effort by over 40%** by automating Excel and Power BI workflows, improving speed and reliability of MIS delivery.
 - Worked closely with **HR, Finance, and Production teams** to validate data and ensure consistency across all management reports.
 - Utilized **Power Query (M) and DAX** to enhance data transformation, KPI calculation, and dashboard performance.
 - Used **Axpert ERP software** for data extraction and integration into reporting and dashboard solutions.
-
